Number:

Reference: Appointment of Purchasing Manager in the Water division.

On the recommendation of FCC Aqualia General Management and the General Organisation Management department, the following appointment has been made:

Mr. Alberto Andérez Ibáñez as Purchasing Manager in the Water division of the FCC Group.

He will carry out his duties reporting to the Purchasing Manager of the FCC Group and the corresponding management of FCC Aqualia General Management. Said duties include:

- **To restructure and transform the purchasing service in the Water division, establishing strategies, policies and regulations at both a national and international level, according to those established by the Group.**
- **To manage purchases** relating to the specific activity of the Water division, giving the necessary support and service to production centres.
- Standardisation and streamlining of the products and services in the Water division.

Mr. Alberto Andérez Ibáñez qualified as an Industrial Engineer from the Technical University of Madrid. He joined the FCC Group in 1998 as Head of Service. Since then, he has carried out different roles within the Water division such as management, production leadership and that of other business areas.

All of his experience and knowledge in the division contributes necessary value to his new responsibilities.

Safe in the knowledge that he will be fully supported by everyone, we would like to wish him all the very best in his new role.

Kind regards,

Félix Parra
Managing Director of FCC Aqualia

Jaime Peromarta Regert
Purchasing Manager FCC Group
