Annex to Certificate

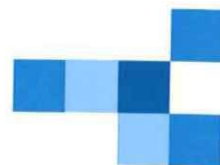

Scope: Research, development and innovation in:

Technological Sciences:

- Chemical Engineering and technology (Industrial Chemistry).
- Computer technology (Terminals, graphic devices and plotters; Real-time; Control devices; Design of calculation systems; Data transmission devices).
- Construction technology (Bridges: Cement technology; Civil engineering; Foundations; Ports; Housing; Hydraulic engineering; Prefabricated constructions; Metallic constructions; Laying of railways; Construction of motorways; Construction of highways, soil mechanics (construction); Structures engineering; Tunnels; Dams; Underground works; Recycling in construction; Geology; Architectural design; Structural strength; Construction Works management).
- Environmental engineering and technology (Industrial waste; Waste disposal; Wastewater technology).
- Instrumentation technology (application in Control Engineering; Robotics)
- Materials Technology (Material properties; Testing of materials; Material resistance).
- Construction equipment.
- Mechanical engineering and technology (Machines, tools and

Annex to Certificate

- Scope:
- ancillary parts).
 - Coal and oil technology (Asphalt materials).
 - Energy technology (Unconventional energy sources; Energy Efficiency; Energy transmission).
 - Naval Technology.
 - Telecommunications technology (Radio communications).
 - Textile Technology (Intelligent textiles).
- Maths:
- Computer science (Artificial intelligence, Computing; Simulation; Sustainable refurbishment of housing; Information systems and components design; Data banks; Digital calculation; Environment control systems; Production control systems; Design of sensor systems).
- Physics:
- Acoustics (architectonic acoustics).
 - Optical Technology (Lighting)
- Earth and Space Sciences:
- Geo-physics (Seismology and seismic prospecting).
 - Oceanography (Marine aquaculture).
- Economic
